Career Objective

Motivated Information Science Engineering student with strong analytical and problem-solving skills. Passionate about Java, SQL, Machine Learning, and Full-Stack Web Development. Seeking an opportunity to apply technical knowledge and continuously learn while contributing to organizational success.

Education

Jawaharlal Nehru National College of Engineering, Shivamogga

Bachelor of Engineering in Information Science

CGPA: 9.24/10

Government Pre-University College, Sagara

PUC (PCMB)

93.67%

Nirmala Girls High School, Sagara

SSLC

90.08%

Technical Skills

Programming Languages: Java, SQL(Basics)

Core Subjects: Basics of Data Structures & Algorithms, Operating Systems, Computer Networks

Technologies: Machine Learning, Full Stack Web Development

Tools: GitHub, VS Code, MS Excel, Android Studio, Google Colab

Projects

Placement Preparation Tracker

- Developed a full-stack web application to help students organize and monitor placement preparation in one platform.
- Implemented secure authentication using JWT and bcrypt.
- Built REST APIs using Node.js and Express.js with MongoDB for data management.
- Developed modules for task tracking, topic tracking, certification management, notes, profile management, and dashboard analytics.

AI-Based Smart Surveillance System for Women Safety. (Ongoing)

- Developed an AI-powered surveillance system for real-time threat detection.
- Generated emergency alerts for suspicious activities to improve women's safety.

Smart Heart Disease Predictor

- Built a machine learning model to predict heart disease using healthcare datasets.
- Applied classification algorithms and data preprocessing techniques for prediction.

Achievements

- Third Rank in 5th Semester, Information Science & Engineering Department.
- Certificate of Merit for Academic Excellence by Institution's Innovation Cell.(First Year).

Certifications

- NPTEL – Programming in Java
- IBM – Fundamentals of AI
